Maxilator Accumagrapple

The Maxilator Accumagrapple Elite 15 is the Big brother of our 10 bale machine it can gather 15 bales of hay from the field, load it onto a trailer or a truck and unload and reload the hay with the same piece of equipment. The Accumagrapple 15 simply converts to a grapple for off loading and stacking of the hay in less than 3 minutes by removing the lock pins from the center bars and dividers and either the left or right packing arm. The grapple can then be used right handed or left handed depending on which side of the trailer you unload from. Our ten bale groups of hay make stacking the hay safe and secure locking them together on the trailer or in the barn. All of the Maxilator hay handling equipment can be used with a tractor or a skid steer loader. Bale size can vary from 36" to 42" with the preferred size being 39" this allows for a variance in your bale size. When un-hooking the Accumagrapple 15 from your tractor or skid steer and it is being used as a grapple it is important to remove the storing leg provided on the rear of your machine and attaching it to the front of your grapple on the opposite side of your packing arm. This allows for easy hook up to your tractor or skid steer. Maxilator equipment is manufactured in the USA and carries a 5 year warranty.

Elite 15 WS Specifications

Length 97"
Width 123"
Height 26.5"
Weight 1216 lbs

Maxilator Grapple

The Maxilator Grapple is a rugged high quality grapple that can handle groups of 8 to 10 square bales of hay. The bale length can vary from 36" to 42" One unique feature of our grapple is that it can be quickly converted to a left or right handed grapple by simple removing the lock pins on the front and rear of the packing arm and sliding off the packing arm and moving it to the other side. When un-hooking the grapple from your tractor or skid steer it is important to remove the storing leg provided on the rear of your machine and attaching it to the front of your grapple on the opposite side of your packing arm. This allows for easy hook up to your tractor or skid steer. Maxilator equipment is manufactured in the USA and carries a 5 year warranty.
