FLEX-WING FINISHING MOWERS

FLEX-WING FINISHING MOWERS - SM 3600 4500 5200

The new rear discharge FLEX-WING finishing mower series has been designed to provide the quality, precise mowing and smooth cut professional demands. Each model features 3 floating decks with 4 wheels on each deck.

Available in a choice of: 12' 15' or 17' cutting widths.

This is the ideal mower for golf courses, parks and large areas maintenance.

Wing decks flex front to rear and side to side during working for better mowing on uneven terrain.

Compare these large-areas mowers in quality, durability and operating performance and you will see that these are the best choice for clean and smooth mowing jobs.

STANDARD FEATURES

- Units hydraulically fold for easy transport and storage
- Spacers provide quick and easy height adjustment on each deck
- Independent floating decks allow precise cutting on uneven terrain
- Standard front rollers
- Decks are rear discharge fitted with chain guards
- Constant velocity driveline with slip clutch
